dolik.rce wrote on Mon, 12 July 2010 17:35Hi Ion,

Nice! One thing I like on V8 is the simpler interface (compared to JavaScriptCore).

Did you/Do you plan to try compiling statically?

Regards,
Honza

Hello Honza,

Thank you for test!

I tested and works fine! Just replace v8.lib with the static library. I didn't upload here because the 7z compressed version have size 6Mb but decompressed size is 130Mb.

The Hello world size in static mode have 1.8Mb

Add:

You can download the static library by address:
http://www.2shared.com/file/p1lTThD7/v8_online.html

Before build please remove the flag "SHARED".

Tell me if all is OK or not!
