mrjt wrote on Thu, 15 July 2010 17:19Ah I see. My Docking package is limited to a single row of items in each side dock. Some of the more complex arrangements from VS are unattainable with it. I originally had a more versatile approach but the complexity is overwhelming, plus it precludes other features like animation.

Another nice future will be tabbing the main window!

Thank you for great tool!

I will try to test and if is need to contribute!
