It looks like after update from SVN (rev. 2555) Functions4U leads to link error:Quote:error LNK2005: "void __cdecl Upp::Xmlize<class Upp::GridCtrl>(class Upp::XmlIO,class Upp::GridCtrl &)" (??\$Xmlize@VGri dCtrl@Upp@ @ @Upp@@YAXVXmlIOa href="mailto:>@0" target="_blank">>@0a href="mailto:>@AAVGridCtrl" target="_blank">>@AAVGridCtrl@0@ @Z)

UPDATE: After commenting out function template <> void Xmlize(XmlIO xml, GridCtrl& r) everything links fine.
