Here it goes:

```
//statusbar;  
label_com_editor.SetRect(150,4,60,22);  
label_com_editor.SetText("Command:").SetFrame(LeftSeparatorFrame());//<- This is what you  
need (I guess).  
.....
```

Code above places a StaticText (label_com_editor), displaying "Command:" and adds a LeftSeparatorFrame, which inserts a vertical separator at the left of the StaticText.

Let me know if this is what you are looking for.

Cheers,

Javier
