Subject: New functions for Esc
Posted by koldo on Fri, 20 Aug 2010 07:42:20 GMT

Hello Mirek

I would like some functions to be added to Esc:

fn atan(z);
fn abs(a);
fn double(n); // Returns n converted to double

fn DrawEllipse(); fn FillEllipse();
fn DrawCircle(); fn FillCircle();
fn DrawArc();

Now I use some home made versions in Esc, but the drawing quality for filling functions is less than ideal .
