Well... finally it's showing out. Still missing something, but I use already on my job and it'll be for sale in about a month.

For now, you can download the demo here :

Windows :

<http://www.timberstruct.it/TimberInst.exe>

Ubuntu 64 bit :

<http://www.timberstruct.it/TimberInst64>

Sorry, no Ubuntu32 by now, app is (by now) dual language, Italian and English (help still just in Italian, sorry)

Here a screenshot :
