Subject: Re: How to set the dpi (dots per inch) of an image
Posted by koldo on Fri, 10 Sep 2010 09:41:40 GMT

Hello Mirek

Quote:Raster::GetInfo returns Info, which in turn has "dots" member, which is physical size of image (in dots).

Perhaps instead of in "dots" do you mean in meters?. This way info.dots would be the physical image Size in meters.
