Subject: Re: GLCtrl and Docking: do they work together as expected?

Posted by 281264 on Tue, 14 Sep 2010 17:21:23 GMT

An additional post to the previous:

How a GLCtrl of the attached example can access one of the others controls? For instance, If I desired to write a message in one of the arrayctrls after a click in the GLCtrl window is made, how to do it?

Cheers,

Javier
