## Subject: Re: How to set the dpi (dots per inch) of an image
Posted by mirek on Thu, 16 Sep 2010 21:49:37 GMT

Well, this is a great job, but I really dislike the idea of adding 'dots' parameter to RasterEncoder methods.

First, doing so we would break all existing code. Second, I believe that the interface already has means how to handle with this - it is not necessarry to change the interface here. Setting dpi is no different from setting palette or hotspot IMO...
