Hi everybody,

I re-post it here

Experimentating on MySQL application, I have this link problem.

```
----- Core ( MT GCC FORCE_SIZE WIN32 ) ( 1 / 5)
----- MySql ( MT GCC FORCE_SIZE WIN32 ) ( 2 / 5)
----- plugin/z ( MT GCC FORCE_SIZE WIN32 ) ( 3 / 5)
----- Sql ( MT GCC FORCE_SIZE WIN32 ) ( 4 / 5)
----- insertionAFB ( MT MAIN GCC FORCE_SIZE WIN32 ) ( 5 / 5)
```

Linking...

```
c:/program files/codeblocks/mingw/bin/./lib/gcc/mingw32/4.4.1/./././././mingw32/bin/ld.exe:
cannot find -lmysql
collect2: ld returned 1 exit status
```

I copied everywhere the 3 libraries:

- libmysql.dll
- libmysql.lib
- mysqlclient.lib

Do someone can resolve/explain the reason

Thank you very much
