Made the change. moved the code and when I attempted to commit I got in the SVN output:

Deleting Projects\UppSrc\uppsrc\ScgiServer

Adding Projects\UppSrc\uppsrc\Web\ScgiServer.cpp
Adding Projects\UppSrc\uppsrc\Web\ScgiServer.h
Projects\UppSrc\uppsrc\Web\Web.upp

Sending Projects\UppSrc\uppsrc\Web\init

Transmitting file data ..svn: Commit failed (details follow):

svn: Access denied

TheIDE then promptly quit on me w/a Windows "stopped working" dialog.

Jeremy

Hi, Jeremy... did you solve the issue? I wish to try your reference example, but it can't find ScgiServer in web package.

Ciao

Max
