Visual Studio 2010 (only C++ installed) installed.

1.no directories recognized in auto-setup when first installing U++ 2754.

2.VC10 part has no "browse" buttons.

I entered "c:\Program Files\Microsoft SDKs\Windows\v7.0A\" and "d:\Program Files\Microsoft Visual Studio 10.0\VC\" in the two boxes and the result is similar to the settings worked for me before as shown in http://www.ultimatepp.org/forum/index.php?t=msg&goto=152 02&&srch=visual#msg\_15202
