---

Visual Studio 2010 (only C++ installed) installed.  
1.no directories recognized in auto-setup when first installing U++ 2754.  
2.VC10 part has no "browse" buttons.

I entered "c:\Program Files\Microsoft SDKs\Windows\v7.0A\" and "d:\Program Files\Microsoft Visual Studio 10.0\VC\" in the two boxes and the result is similar to the settings worked for me before as shown in [http://www.ultimatepp.org/forum/index.php?t=msg&goto=15202&&srch=visual#msg\\_15202](http://www.ultimatepp.org/forum/index.php?t=msg&goto=15202&&srch=visual#msg_15202)
