I think I saw this effect when parsing progress indicator dialog showed up. In other cases I was not able to see it. Open CtrlCore/Win32Wnd.cpp. There is InitWin32 method. Try to change values for wc.hbrBackground and/or wc.style (maybe CS_SAVEBITS or 0x20000 causes this, try to remove them). It's just an idea. Hard to say what's the source of the problem.
