Indeed, there already had been efforts to integrate new icon sets such as Tango or Silk. See threads below:

<http://www.ultimatepp.org/forum/index.php?t=msg&goto=9810>

And we clearly see it's a bit hard to make the icons match the rest of the theme. There must be a real effort of selecting the most neutral icons (since Chameleon makes the rest themable) so that it does look integrated.

Any designers out there? I'm definitely not...
