porto wrote on Fri, 15 October 2010 08:20I understand. But what about the cases described above? Is it possible to fix this issue?

P.S. Sorry for posting .avi files.

I am unable to replay the video, but with the screenshot, the problem is not with U++.

Maybe you have not noticed the same issue with other apps, but that is just coincidence. The problem is not with top window, but with window behind...
