pivica wrote on Sun, 30 April 2006 18:39What is situation with Geom package? I can't find Geom/Draw subpackage and Plotter Ctrl in 604-dev4 version. Are they under development in uppbox repository?

Good that you ask

Frankly, I have decided to "minimize" uppsrc, and wait for complaints so that I know which packages are eventually needed to be put back....

Problem is that there is now too much unused backward compatibility stuff in TCode/TCtrlLib etc...

Now I will know what to fix and put back.
