Kasome, thank you for trying the application.

There is an update version, 1.0 beta 1.

The contacts function and the search:

The Events function and the export function:

The merchandises function and the import function:

Downloads:

Windows portable

Ubunte portable

Already tested on Ubuntu 10.04, 9.04,

Windows XP, 7, Vista

A little change to the place storing the database and log.

Windows: Data\ in the directory of the application exe file

Linux: ~/.PikaCRM
