Subject: Re: CDialog::OnInitDialog (MFC) like method?
Posted by alex100 on Mon, 08 Nov 2010 12:09:56 GMT

"I guess the simple approach is just to call whatever equivalent of OnInitDialog after you open the window."

It seems interesting for me. But tell me how i know that window is already opened?

I simply make:

MyApp app;
app.run();

Thanks

Alex
