Uuuf, I would do it only if somebody would have a really urgent need. The code is changing so much that most of the testing effort would not be useful.

Well, perhaps you might need some help with that... Puttin code to Bazaar (or, if you do not feel like that, to uppdev) would expose it to more eyes, correct?

Hello Mirek

Weeks ago MediaPlayer had an important crisis... However now coding goes fast, so in few time it will be uploaded to Bazaar.

Meanwhile SDLCtrl can be checked. All feedback is acknowledged.
