JoseB wrote on Thu, 02 December 2010 15:32in constructor I made this:

```
Rect r=GetRect();  
SetRect(0, 0, r.right - r.left, r.bottom - r.top);
```

and the window is shown in the 0,0 coordinates. I want to center it in the screen

JoseB

CenterScreen(); after SetRect(..) would do that.
