## Subject: printing RichEditWithToolBar rotated 90 degrees? Posted by alex100 on Sat, 04 Dec 2010 01:56:13 GMT View Forum Message <> Reply to Message

Hi!

I am using RichEditWithToolBar in order to print envelops. I write the addresses (source and destination) on the RichEditWithToolBar sheet but now I need to print it rotated 90 degrees as envelops enter in printer in portrait mode.

Is this possible?

Thanks a lot

Alex
