This is very useful, thanks.
I write an example to help someone quickly understand:

```
class PreviewImage : public ImageCtrl {
  void SetData(const Value& val)
  {
    String path=val;
    if(!path.IsEmpty())
    {
      SetImage(StreamRaster::LoadFileAny(~path));
      Refresh();
    }
  }
};

 FileSel fileSelIm;
 PreviewImage img;

 fileSelIm.Type("jpg file", "*.jpg");
 fileSelIm.Preview(img);
```
