This is very useful, thanks.

I write an example to help someone quickly understand:

```
class PreviewImage : public ImageCtrl {
    void SetData(const Value& val)
    {
        String path=val;
        if(!path.IsEmpty())
        {
            SetImage(StreamRaster::LoadFileAny(~path));
            Refresh();
        }
    }
};
```

```
FileSel fileSellm;
PreviewImage img;
```

```
fileSellm.Type("jpg file", "*.jpg");
fileSellm.Preview(img);
```
