Subject: Re: Sound device access system based on PortAudio
Posted by dolik.rce on Mon, 13 Dec 2010 12:16:22 GMT

Really no discussion or opinions on the topic of sound? I guess it is not because it is perfect already so it must be because nobody is interested enough If there is no interest I should probably aim my work in some more useful direction (do not take this as threat please).

Honza

PS: Some news about how the last version works on win32 would be helpful to...
