---

a problem arises, TheIDE would need some fixes, since it is using the EvenRowColor etc.. things that are in Style now, so there one would need to use own Style per control..

**EDIT:**

some packages use the EvenRowColor/OddRowColor thing..

**Quote:**

```
C:\uppsvn\uppsrc\CtrlLib\AKeys.cpp(112): keys.NoHorzGrid().NoCursor();//.EvenRowColor();
C:\uppsvn\uppsrc\ide\Goto.cpp(157): //list.EvenRowColor();
C:\uppsvn\uppsrc\ide\OutputMode.cpp(113): //package.EvenRowColor();
C:\uppsvn\uppsrc\ide\SelectPkg.cpp(316): //alist.EvenRowColor();
C:\uppsvn\uppsrc\ide\Setup.cpp(409):
hlt.hlstyle.NoHorzGrid().SetLineCy(EditField::GetStdHeight() + 2);/.EvenRowColor()
C:\uppsvn\uppsrc\ide\Thisbacks.cpp(50): //list.EvenRowColor();
C:\uppsvn\uppsrc\ide\Virtuels.cpp(104): //list.EvenRowColor();
C:\uppsvn\uppsrc\RichEdit\StyleKeys.cpp(32): list.NoHorzGrid().NoCursor();/.EvenRowColor()
C:\uppsvn\uppsrc\usvn\SvnSync.cpp(26): list.NoCursor();/.EvenRowColor();
```
