mr_ped wrote on Thu, 06 January 2011 09:14you can do it by hand in TheIDE by
Ctrl+Alt+arrowsUp/Down (I think).

Or you may open the particular .upp file in OOo Calc (excel?) and use sort on lines (use selection to modify only file names, also take note of separators and sort only inside groups), fix ", " ";" at end of file names, save back. Open IDE back.

I missed very often here drag and drop support - it's much more convenient than holding key combo or modifying upp file.
