```
void StreamRasterEncoder::Save(Stream& s, Raster& raster)
{
    if(raster.GetWidth() == 0 || raster.GetHeight() == 0)
        return;
```

```
void StreamRasterEncoder::Save(Stream& s, Raster& raster)
{
    if(!raster.GetWidth() || !raster.GetHeight())
        return;
```
