```
Slight optimalization for SyncCaption0() in TopWin32.cpp: if(urgent){  
    if(IsTopMost()) urgent = false;  
    FLASHWINFO fi;  
    fi.cbSize = sizeof(fi);  
    fi.hwnd = GetHWND();  
    fi.dwFlags = urgent?FLASHW_STOP:FLASHW_TIMERNOFG|FLASHW_ALL;  
    fi.uCount = 0;  
    fi.dwTimeout = 0;  
    FlashWindowEx(&fi);  
}
```
