
Subject: Re: [BUG?] X11 (at least OSX) Menus displayed under TopWindow,
owner=RootWindow

fudadmin wrote on Fri, 28 January 2011 00:41 on OSX, as it has been mentioned in the forums,
upp menus are shown.

I have found out that they are displayed under the application window and parent is desktop root
window. Or popups are displayed miles away on top of other apps.

Actually, on top of everything else is OK. This is the only way X11 can do...
