Hi,

personally, I would also go for Lua, because of the advantages already mentioned.
The only disadvantage compared to other scripting alternatives I see is the lack of a huge library
like there is for Python and Ruby for example.

could you provide an embedded lua test project?

Have a look here:
 http://www.ultimatepp.org/forum/index.php?t=msg&goto=221 58&&srch=LuaPlus#msg_22158
