I think i found a solution:

```
void CMyDlg::ChildGotFocus(void)
{
    EditString *pEditStr=NULL;
    pEditStr=dynamic_cast<EditString *>(GetFocusCtrl());
    if(pEditStr)
    {
        pEditStr->CancelSelection(); //Remove
        pEditStr->Key(K_END,0); //Goto End
    }
    ...
}
```
