raxvan wrote on Sun, 13 February 2011 00:14Hello,

I have attached a patch for the latest IDE revision. The source code is almost complete and i tested this in linux and windows. It works fine with one exception: When compiling the ide for speed in linux the assist will not start.

Thanks,

Raxvan.

Is it updated <http://dl.dropbox.com/u/9887398/ide.rar> ?
