```
<: :xxx = 10; :>
```

```
<: :xxx :>
```

If that worked I wouldn't have asked...

Are you sure this works with *.upt?

For me it says #ERROR: missing :>

Can be a bug? Because it works like this:

```
<: :xxx = 10 :>
```

```
<: :xxx :>
```

Edit:

But, in this case, if I assign a number or a string Esc outputs them. Maps and arrays are OK.
