ratah wrote on Fri, 25 February 2011 04:39Hi everybody,

I want to execute some String without writting code.

In Javascript, i can do this.

http://www.w3schools.com/jsref/jsref_eval.asp

I want to know if an equivalent function exists in upp.

Thannk you

Depends on what is in the String

However, the first thing in mind is that C++ is _COMPILED_ language.
