pivica wrote on Tue, 09 May 2006 03:12I've tried to compile it on Linux and there is an error:

TopWinX11.cpp

/home/ivica/upp/uppsrc/CtrlCore/TopWinX11.cpp: In member function `void

TopWindow::SyncCaption()':

/home/ivica/upp/uppsrc/CtrlCore/TopWinX11.cpp:135: error: `XA\_\_NET\_WM\_ICON'  
undeclared (first use this function)

/home/ivica/upp/uppsrc/CtrlCore/TopWinX11.cpp:135: error: (Each undeclared  
identifier is reported only once for each function it appears in.)

Sorry... as there is another bug in TheIDE, looks like we will have to release RC2 soon

Mirek
