Hi Koldo

I guess the only correct solution is to change CtrlLib/CtrlLib.usc, e.g. like this:ctrl DropTime {
group "Input fields";

```
GetMinSize() { sz = XMinSize(); sz.cy += 6; return sz; }  
GetStdSize() { sz = GetMinSize(); sz.cx *= 15; return sz; }
```

```
Frame SetFrame = InsetFrame();  
bool SetEditable = true @2 ? "Editable";  
bool SelectAll = true;  
bool SwapMonthYear = false;  
bool Seconds = true;  
bool NotNull = false;  
bool WantFocus = true;  
Text Tip;  
//...  
}
```

Actually the same problem applies to otherCtrls as well (I saw it in at least in DropDate, Clock, Calendar).

Honza
