That you'll have to familiarize yourself with the QTF grammer:

Here

Or more specific:  
Basic QTF codes

\_ Hard-space - space that cannot be divided at the end of line.

& New paragraph.

-| Tabulator

@\$hex; Unicode character as hexadecimal number.

I am in more or less the same stage in learning U++ as are you. There are too much too learn and sometimes quick and relevant pointer is not readily available.
