tojocky wrote on Fri, 29 April 2011 08:54Hello,

I have a trouble with load 16bit tiff image and set color/contrast auto-level.

Is possible in U++?

Thank you in advance!

Hi lon,

Unfortunately, U++ doesn't support 16 bit tiffs at the moment, and even libtiff support is quite limited. Have a look at this thread about the same topic, there are some links to sites suggesting how to possibly overcome these limitations...

Best regards,
Honza
