I have this code and I cant read non US characters and also pass a character which is not ascci..

can you help me where is my problem (or what am I doing wrong..)

```
CONSOLE_APP_MAIN
{
 Sqlite3Session db;
 if(!db.Open(ConfigFile("sozluk.db"))) {

  return;
 }

#ifdef _DEBUG
 db.SetTrace();
#endif

 SQL = db;
 SQL.ClearError();

 Sql sql;
 sql.Execute("select tur from kelimeler where ing =\"hi\" limit(10)");
 //for(int i = 0; i < sql.GetColumns(); i++)
 // Cout() << sql.GetColumnInfo(i).name << "\n";
 while(sql.Fetch())
  Cout() << sql[0] << "\n";
 Cout() << sql.GetColumns() << "\n";

}
```

by the way my databases is defined as follows

```
BEGIN TRANSACTION;
CREATE TABLE kelimeler (tur VarChar(100) NOT NULL, ing VarChar(100) NOT NULL);
INSERT INTO "kelimeler" VALUES('ne','what');
INSERT INTO "kelimeler" VALUES('bir','a');
```

.
.
.

```
CREATE INDEX idx_tur ON kelimeler(tur);
CREATE INDEX idx_ing ON kelimeler(ing);
COMMIT;
```
