A feature?

Mirek

The reason?

The lack of time to fix it?

Mirek

That empty lines forced me to making "ugly" upt files. I had to merge lines into one to avoid producing empty lines. Can you add it to todo list (to not forget)?

OK.

However, if I remember well, the real trouble is to define "correct-line-end" - to define which line endings should be excluded. This is what prevented me to do it last time....
