GaroRobe wrote on Thu, 02 June 2011 07:37I can't import whole subtree of headers into package. More like I can, but all the hieracity "flattens" and, obviously, all cross-references between headers breaks.

Hello.

Long time ago I created GetUppFromDir command line utility. It have -r (recursive processing of subdirectories) option for this case. It also useful to create U++ packages from scratch.

Edit:

GaroRobe wrote on Thu, 02 June 2011 08:19Hope to see recursive files import feature soon Implemented for 4193 release.
