Hi Koldo

I did a google searce for "tmainCRTStartup" and found this:
   http://social.msdn.microsoft.com/Forums/en/vclanguage/thread
/14e85604-6929-4707-a22e-8cdf596926a6

In theIDE I clicked on the box that has "GUI MT and deleted the GUI.

It compiled without errors and opened a dos box and displayed the 5 lines mentioned above.

Thanks for the help, couldn't have done it on my own.

edit: Tried to merge and tile 2 images.
It started OK and displayed the args as it should then crashed.
Still have a few bugs to work out.
