Compiled in debug mode I get an error that says in the MS error box:
Debug Assertion Failed!
Program: C:\FWTool~1.7\bin\ntile
File: f:\dd\vctools\crt\self_x86\crt\src\close.c
Line: 47

Expression: (fh >=0&&(unsigned)fh <(unsigned)_nhandle)

I also tried this after copying HalifaxN.tif to the U++ output directory like I often do in Python for testing:

```
int main(int argc, char *argv[]) {  
// --lztsd 10.0 --wwcache --overviews 0nt HalifaxN.tif  
argc = 8;  
argv[0] = "ntile";  
argv[1] = "tile";  
argv[2] = "--lztsd";  
argv[3] = "10.0";  
argv[4] = "--wwcache";  
argv[5] = "--overviews";  
argv[6] = "0nt";  
argv[7] = "HalifaxN.tif";
```

I get the same error as above.

Another issue doing it this way or with the U++ "CommandLine()" is
this opens in a regular dos box rather than the FWTools dos box.
