Hi Koldo

95% done, it does everything (and more) than what I have used the  
dstile for to merge and tile the U.S. FAA Charts for the last 3 years.

Here is a .zip with the two .exe and a help file.  
[http://www.nlneilson.com/apps/N\\_tile\\_01.zip](http://www.nlneilson.com/apps/N_tile_01.zip)

Thanks for the help getting the code converted enough to compile with U++.
