However, wrt this subject, this looks interesting:

  http://wmpoweruser.com/is-microsoft-planning-to-release-a-na tive-sdk-for-windows-phone-7/
The previous poster me is just a spammer - they sneaked links into my quotation

Anyway, even if there was a native SDK, I maintain my opinion that windows based phones popularity decreases over time in favor of iphone and android... But don't take me too seriously, I don't even own a smartphone
