```
int timeout=100;
time_out.tv_sec = timeout / 1000;
time_out.tv_usec = timeout % 1000 * 1000;
```

```
if(!*IsNull(timeout) || /* select(gniazdo + 1, &file_set, NULL, NULL, &time_out) > 0)
```

it seems that this is due to network card (10/100) - (10/100/1000).

probably will use the upp:: Socket.

I do not know how to control the various systems. Socket can give advice.

```
/*IsNull(timeout) || */ it helped.
```

Howk All!!
