**Subject: ak math funcs on Ctrls**
Posted by qwerty on Tue, 23 May 2006 06:30:52 GMT

hello,

is there any operators aka 'intersects'(on rectangles, rectangle vs. point, ...) or 'pertains' in math(set theory) ?

...for Ctrls vs. Ctrls, mouse vs. ctrls or any other useable T, on which is these 'operators' or funcs useable.

have a nice day
