I forgot to include another fix I had to make to compile on Oneric:

Algo.h file in uppsrc/Core needed the following std:: added to ptrdiff_t reference at source line 1003:

```
template <class II, class VI, class K, class Less>
inline void __IndexSort(II begin, II end, VI pair, const Less& less, const K *)
{
    Sort(IndexSortIterator<II, VI, K>(begin, pair),
        IndexSortIterator<II, VI, K>(end, pair + (int)(std::ptrdiff_t)(end - begin)),
        less);
}
```
