koldo wrote on Wed, 19 October 2011 19:35Hello all

I would like to get an Image from a DrawingDraw using only `#include <Draw/Draw.h>`.

```
DrawingDraw idraw(size);  
idraw.DrawRect(size, Red());
```

```
Image img = CoolFunction(idraw.GetResult());  
Is it possible?
```

No. You have to use Painter... (but generally, the code will be the same).

DrawingDraw is 'defined' as using host GUI drawing capabilities.
